REALIZE YOUR DREAMS.
Bachelor of Science, Computer Science

GO WEST
UWG™

UNIVERSITY of West Georgia

Department of Computer Science

www.cs.westga.edu
Choose a program that provides you with the computer science fundamentals, cutting edge technical skills and hands-on experience you need to thrive in the constantly evolving information technology field. We're one of just seven Georgia schools accredited by ABET and our job placement rate for graduates is 100%. You'll be able to join active student organizations that fit your interests and network with industry professionals through internships and events. Financial aid and on-campus jobs are available to help you fund your studies.

Choose from courses such as:
- Web design & development
- Software engineering
- Database development & administration
- Mobile technology
- Systems & network administration
- Artificial intelligence & robotics
- Game design
- Multiple platforms and languages

Take advantage of:
- Highly qualified faculty with diverse academic and industry backgrounds
- Small class sizes
- 24/7 access to state of the art facilities and labs
- Specialized labs such as robotics, networks and architecture
- Peer tutoring and mentoring
- A student-centric community of faculty, staff and students

Student Organizations:
These active, collaborative groups are a great way to get to know people with similar interests and share news and ideas about the IT industry.

The best and brightest Go West.
